

June 23, 2017

To whom it may concern:

This letter confirms that A-LIGN conducted a Type 2 SSAE 18 examination of the Title Insurance and Settlement Services for Waco Title Company ('Waco') in accordance with American Land Title Association (ALTA) Best Practices System at its Arkansas and Missouri Title Office locations.

The examination of Waco's description of the system for the Title Insurance and Settlement Services in accordance with ALTA Best Practices were performed to determine whether or not, in all material respects and based upon suitable criteria:

- the description fairly presents the system that was designed and implemented for the period May 1, 2016 through April 30, 2017.
- the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively for the period May 1, 2016 through April 30, 2017 and subservice organizations and user entities applied the complementary controls contemplated in the design of WACO's controls for the period May 1, 2016 through April 30, 2017.
- the controls tested, which together with the complementary subservice organizations and user entity controls referred to in the scope paragraph of this report, if operating effectively, were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively for the period May 1, 2016 through April 30, 2017.

The review period for the engagement was May 1, 2016 through April 30, 2017 with an unqualified audit opinion.

Regards,

Scott G. Price
